

Welcome!

Please let us introduce ourselves & explain a little about our clinic.

WHO ARE WE?

Ben & Masako are two highly trained professionals licensed by the Board of Registration in Medicine of Massachusetts with over 30 years of combined experience. Throughout our careers, we've sought out some of the top physicians of our time, training, learning, and practicing to hone our craft in order to provide you with top-notch alternative and complementary healthcare.

WHAT WE DO

We practice natural, non-invasive, and drug-free therapies that have stood the test of time and have helped millions world-wide.

Our comprehensive therapy combines acupuncture, herbal medicine, exercise and postural therapies, as well as nutrition and mind-body practices that provide effective and tangible results.

We believe, and our practice has proven, that when health challenges are addressed in this wholistic way, miraculous change is possible.

WHEN WE STARTED

After years back east, Ben & Masako re-located to the Pioneer Valley in 2008, to raise a family, and begin a new kind practice

“Of all the forms of inequality, injustice in healthcare is the most shocking and inhumane.”

-Martin Luther King

aimed at delivering Chinese medicine to the community the way it was meant to be practiced... a way that allowed people to get enough treatment to get better and stay better.

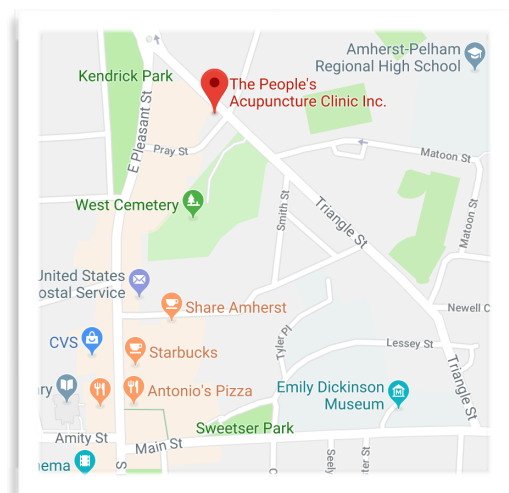

We've continued to develop our mission of social justice through healthcare, giving the people an another way to health that doesn't rely on drugs or high-tech surgery, and puts the power of one's health back in the hands of the patient.

Now, you can make appointments 6 days a week, with both morning & evening hours available.

WHERE'S THE CLINIC?

228 Triangle Street
Amherst, MA 01002

We are located conveniently in downtown and have FREE parking in our lot just off of Pray St. across from the Jones Realestate office. We are also a 2 minute walk from the bus stop in front of Kendrick Park.

You can book appointments via our webpage 24/7, 365 days a year: www.thepeoplesacupunctureclinic.com

WHY US?

Why should you hire us? Because nothing beats the power of Chinese medicine when it comes to natural therapy for pain relief, chronic disease, and illness prevention.

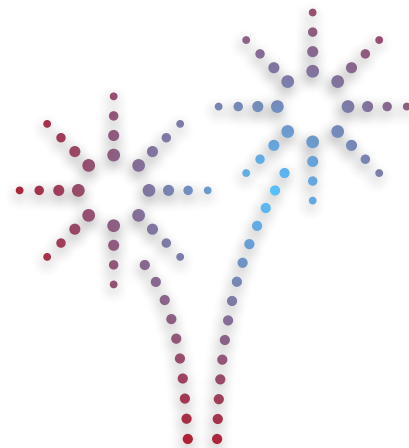

Let us prove it you... Risk Free. That's right. Try us a few times. Kick the tires. If you're not happy with our service, do not feel cared for and listened to, or if you feel like our therapy is not right for you, let us know by your fifth session and we'll refund you in full.

HOW WE GET EXTRAORDINARY RESULTS

Over the last decade, we've been able to help patients achieve amazing results such as eliminate chronic pain, reduce or get off of conventional drug therapies, recover from stroke, stop anti-depressants, balance reproductive functions, get pregnant after a bout of infertility, relieve the symptoms of heart disease, pulmonary diseases, circulatory disease, various skin conditions, auto-immune problems, wow... the list goes on and on.

We do this by applying a combination of natural therapies that can enhance your body's own self-regulating and healing system. These methods are not always a quick fix, but improvement can be felt almost right away, and continues as one's goes along in the treatment process.
